Free Online Software

Learn to use Google Apps, Google Drive, Google Docs, Sheet, Slides, Forms, Gmail, Photos, Maps, Blogger and associated cloud-based applications. Share and collaborate with online projects in real time

Wednesday Mornings 10_{am}-12_{pm}

Free 11 week courses starting 19th September – Tutor: Geoff Stilwell

Free Digital Image Editing

Create, edit and enhance digital images using the FREE but powerful alternative to Photoshop, **GIMP**.

Transfer photos from your digital camera to the computer. Scan old printed photos. Crop and resize images. Heal and repair images. Correct exposure and lighting problems. Select parts of an image, create montages. These are just a selection of things you can learn on this course.

Wednesday Afternoons 1_{pm}-3_{pm}

Computing: Your Choice - Open Learning Sessions

Beginners can follow a structured course to help you get started and become competent with the computer (*Ask about the **St@rt** course*). Learn foundational skills: controlling windows, the filing system, using programs, using the Internet to retrieve information and for communication. Then learn about word processing which is fundamental to most programs. There is progression to intermediate level courses. Ask about other courses we offer.

Do you have a multimedia project for publication on paper or on the web that you will need IT skills to complete?

Use the www for online shopping or booking tickets or travel.

Come and enjoy learning about and using computers in an informal, friendly, environment.

Work at your own

pace. Whatever your level of expertise, there's something for you.

Get a qualification. We can help you study towards **ECDL** work-based ICT qualifications with both interactive and paper-based materials. Study **Microsoft Office 2010, Photoshop Elements**, and free alternatives: **Open Office, GIMP, Scribus, InkScape**.

See the timetable (right) to choose a time. There is someone here who can provide a helping hand or a word of advice at the right time.
